Blessings for the child

A page for grandparents, elders and the family priest to write their blessings, the naming-ceremony date and other memories.

❀ ❀ ❀

Written with care to the best of our knowledge. May the child be blessed. Shubham.

This janma patrika is computer-calculated from the birth date, time and place given, using traditional Vedic astrology (Swiss Ephemeris, Lahiri ayanamsa). The readings are traditional pointers, not guarantees; it makes no prediction about the child's health or lifespan. Always follow the paediatrician on health. A small change in birth time can change the lagna and dates, so use the time from the hospital record.
