What to tell your doctor

> *"We would like the baby to be delivered (first cry) at **10:22 AM** on **25 December 2026**. Any time from 10:12 AM to 10:54 AM is fine for us. If that is not possible, our next choices are 01 January 2027 at 5:15 PM (4:46 PM to 6:00 PM); 31 December 2026 at 6:18 AM (6:00 AM to 6:47 AM). Please note the exact first-cry time. The medical decision is always yours."*

The full surgery timing plan for each option (admission, theatre, anaesthesia) is on that option's page.

How to read the times

- **Baby-out target** is the minute we aim for: the first cry, when the baby is delivered.
- **Best window** is the strongest part. It can be only a minute or two long; that is normal.
- **Still good** is the full safe window. If surgery runs early or late, any minute inside it is still good.
- Ask the hospital to write down the exact first-cry time to the minute.

Remember

- **The doctor decides.** Never delay or hurry medical care for a muhurta.
- If the birth happens at another time, that time is blessed too. The child's horoscope is made from the real first-cry time.

Every day in your doctor's dates

We checked every minute from 06:00 to 18:00 on each day your doctor allowed. Here is each day, good or weak, and the reason in plain words.

Date	Result	Why, in plain words
Friday, 25 December 2026	**Chosen** Option 1	Option 1: best time 10:22 AM (good from 10:12 AM to 10:54 AM). About 4 h 38 min pass every rule.
Saturday, 26 December 2026	**Avoid** no good time	Vishti (Bhadra) karana is running: a half-day that tradition avoids for any new beginning. The Sun-Moon yoga is Vyatipata or Vaidhriti, the two yogas tradition always avoids.
Sunday, 27 December 2026	**Avoid** no good time	The Moon is in a Gandamoola star (Ashwini, Ashlesha, Magha, Jyeshtha, Mula or Revati). Tradition avoids these stars for a planned birth.
Monday, 28 December 2026	**Good** not chosen	About 1 h 8 min pass every rule. Best window 4:34 PM to 4:44 PM is only 10 min, too tight if surgery runs late. Usable as a backup.
Tuesday, 29 December 2026	**Good** not chosen	About 2 h 16 min pass every rule. Best window 10:56 AM to 11:22 AM ranked below the chosen times. Usable as a backup.
Wednesday, 30 December 2026	**Good** not chosen	About 4 h 48 min pass every rule. Best window 4:54 PM to 6:00 PM ranked below the chosen times. Usable as a backup.
Thursday, 31 December 2026	**Chosen** Option 3	Option 3: best time 6:18 AM (good from 6:00 AM to 6:47 AM). About 5 h 38 min pass every rule.
Friday, 1 January 2027	**Chosen** Option 2	Option 2: best time 5:15 PM (good from 4:46 PM to 6:00 PM). About 5 h 26 min pass every rule.
Saturday, 2 January 2027	**Good** not chosen	About 1 h 18 min pass every rule. Best window 4:42 PM to 6:00 PM ranked below the chosen times. Usable as a backup.
Sunday, 3 January 2027	**Good** not chosen	About 5 h 12 min pass every rule. Best window 9:36 AM to 11:02 AM ranked below the chosen times. Usable as a backup.
Monday, 4 January 2027	**Avoid** no good time	The Moon (the mind) is in Scorpio, its weakest sign.
Tuesday, 5 January 2027	**Avoid** no good time	The Moon is in a Gandamoola star (Ashwini, Ashlesha, Magha, Jyeshtha, Mula or Revati). Tradition avoids these stars for a planned birth.
Wednesday, 6 January 2027	**Avoid** no good time	The Moon is in a Gandamoola star (Ashwini, Ashlesha, Magha, Jyeshtha, Mula or Revati). Tradition avoids these stars for a planned birth.

What we always leave out

Every day has a few periods that tradition avoids (**Rahu Kalam, Yamagandam, Gulika, Durmuhurtham, Varjyam**). Some whole days are avoided because of the Moon: a **Gandamoola** birth star, **Amavasya** (new Moon), **Vishti karana**, the **Vyatipata** and **Vaidhriti** yogas, or the Moon in its weak sign or with Rahu or Ketu. We also skip the minutes when the rising sign is about to change (**lagna sandhi**). Each word is explained on the "Words used in this plan" page.

Best 10:22 AM to 10:24 AM · Still good 10:12 AM to 10:54 AM · pregnancy 38 weeks 2 days

1. Surgery (C-section) Timing Plan

≈ 10:12 AM	Skin incision (surgery start)	= 10:22 AM minus the surgeon's incision-to-delivery time (usually 8 to 10 minutes)
10:22 AM – 10:24 AM	**BABY DELIVERY – target 10:22 AM**	Best window: the strongest minutes

Words used in this plan

Word	What it means
Muhurta	A chosen auspicious moment. For a planned birth it is the minute of the baby's first cry.
Lagna (rising sign)	The zodiac sign rising in the east at the moment of birth. It changes about every two hours and is the most personal part of the chart: body, health and outlook.
Rasi (Moon sign)	The sign the Moon is in. It shows the mind and emotions, and is used for the child's name letters and for daily horoscopes.
Nakshatra (birth star)	One of 27 star groups the Moon passes through, about one a day. Each has 4 parts (padas).
Tithi	The lunar day, from the distance between the Sun and the Moon. Shukla means the Moon is growing, Krishna means it is shrinking.
Yoga (nitya yoga)	One of 27 daily combinations of the Sun and the Moon, each with a meaning.
Karana	Half of a tithi. Vishti (Bhadra) karana is the one tradition avoids.
House	The chart has 12 houses, each a part of life (1st self, 2nd family and money, 4th home, 5th studies, 7th marriage, 9th luck, 10th career, 11th income).
Kendra, trikona	Kendra (pillar) houses are the 1st, 4th, 7th and 10th; trikona (fortune) houses are the 1st, 5th and 9th. Planets placed there are strong.
Upachaya, dusthana	Upachaya (growth) houses are the 3rd, 6th, 10th and 11th, good for strong planets like Saturn, Mars and Rahu. Dusthana houses (6th, 8th, 12th) are the difficult ones.
KP sub-lord	The Krishnamurti (KP) system checks each house through a tiny division of the sky. It is sensitive to the minute, which is why the target minute matters.
Dhana yoga, Raja yoga	Planet combinations that tradition links with wealth (Dhana) and status or public service (Raja).
Neecha Bhanga	A planet in its weakest sign whose weakness is cancelled by other planets.
Rahu Kalam, Yamagandam, Gulika	Three periods of about 1.5 hours every day, fixed by the weekday and sunrise. Tradition avoids beginning anything in them.
Durmuhurtham, Varjyam	Shorter inauspicious periods: Durmuhurtham by the weekday, Varjyam by the day's birth star.
Gandamoola	Six birth stars at the joins of water and fire signs. Tradition avoids them for a planned birth.
Lagna sandhi	The few minutes when the rising sign is about to change. A birth here gives an unsteady chart.
Dosha	A combination that tradition says needs a little care. Most charts have one or two, and simple remedies exist.

Blessings for your child

राधे श्याम राधे श्याम श्याम श्याम राधे राधे ॥

❁ ✦ ❁

यत्र योगेश्वरः कृष्णो यत्र पार्थो धनुर्धरः ।
तत्र श्रीर्विजयो भूतिर्ध्रुवा नीतिर्मतिर्मम ॥

Wherever there is Krishna, the Lord of yoga, and wherever there is Arjuna with his bow, there will surely be prosperity, victory, well-being and righteousness. (Bhagavad Gita 18.78)

❁ ✦ ❁

सर्वे भवन्तु सुखिनः सर्वे सन्तु निरामयाः ।
सर्वे भद्राणि पश्यन्तु मा कश्चिद्दुःखभाग्भवेत् ॥

May all be happy, may all be well, may all see what is good, and may no one suffer.

आयुष्मान् भव । यशस्वी भव । विद्यावान् भव ।

Be blessed with a long, full life. Be blessed with good name. Be blessed with learning.

Before the day

- **Your doctor decides.** The obstetrician decides whether and when a planned delivery is safe. Use these times only inside the dates your doctor has approved, and never delay medical care for a muhurta.
- Share the hospital schedule with the doctor a few days before, so the team can plan admission, the move to the operation theatre and anaesthesia around the target time.
- If the surgery cannot happen in the window, a birth at any time is blessed. The child's own horoscope is then made from the real first-cry time.
- Ask the nurse to note the exact first-cry time to the minute.

How these times were found

Calculated with the Swiss Ephemeris, using the Lahiri ayanamsa for Vedic rules and the Krishnamurti (KP) system for the cusp sub-lords, for the hospital location Hyderabad, Telangana, India (17.385, 78.4867, Asia/Kolkata). Every candidate minute is scored on the rising sign, the lagna lord, planets in angles, yogas, the birth star and the KP sub-lords of the 1st, 2nd, 10th and 11th cusps.

This plan is traditional Vedic astrology, for guidance and reflection only. It is not medical advice.
