Your life scores

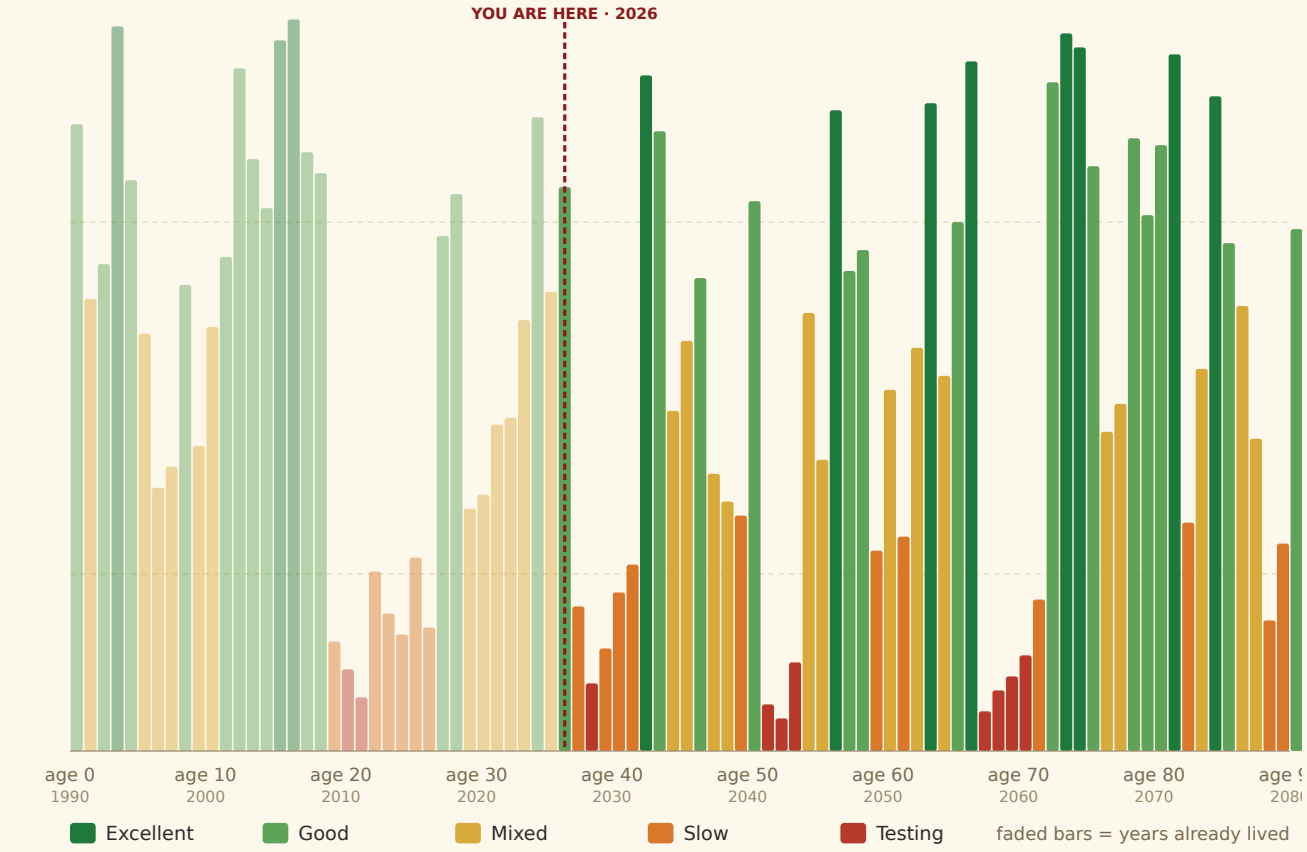

Eleven areas of life, each scored from your own chart. Longer bars are your natural strengths.

A lower score is not a bad sign: it shows where steady effort brings the best results. Section 4 explains every area, and the detailed Report Card shows how to raise each one.

Your life journey

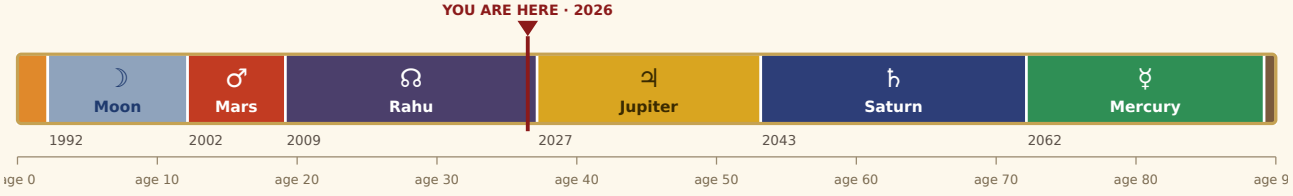

Every year of your life as one bar: taller and greener years flow more easily, shorter and redder ones need more patience.

DECADE BY DECADE

THE PLANETARY PERIODS (DASHAS) BEHIND IT

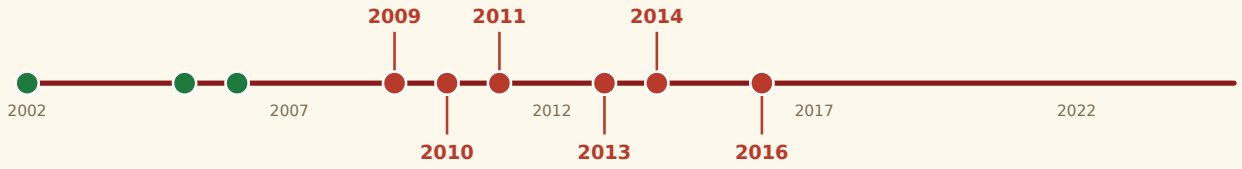

Each coloured block above is a **mahadasha**, a planet's main period. When the block changes, the theme of life changes with it, which is why the bars often step up or down at those points. Section 5 explains every period, and section 8 shows the same journey in more detail.

Your simple remedies

Small, regular steps that tradition links to your chart.

LUCKY DAYS	LUCKY COLOURS	LUCKY NUMBER	HELPFUL GEMSTONE

- Don't worry about small things that are out of your hands.
- Avoid shortcuts, intoxicants, shady deals and get-rich-quick offers.
- Avoid anger, rash driving, disputes and lawsuits.

Your detailed Report Card

The numbers behind the summary pages, in plain words: scores, check-ups, a goals planner and how to raise each score. The chapters after it explain every point in detail.

These readings follow traditional Vedic and KP astrology rules. They are guidance to help planning, not a proven forecast of events.

Life scores

Area of life	Scale	Score	Level	What it means for you
Career and status		**6**/10	Good	Career grows through steady effort and patience
Money and savings		**8**/10	Excellent	Good earning and saving ability
Marriage and partnership		**6.5**/10	Strong	Supportive marriage and partnerships
Children and family joy		**5.5**/10	Good	Family matters need care and patience
Home, property and vehicles		**7.5**/10	Strong	Good chances of owning home, land and vehicles
Education and learning		**6**/10	Good	Learning needs focus and steady practice

Courage and self-effort		**6**/10	Good	Build confidence step by step
Vitality and stamina		**8**/10	Excellent	Good stamina and recovery
Spiritual growth		**7**/10	Strong	Deep faith and inner peace

Scores compare the areas of your own chart with each other. A lower score is not a bad sign; it shows where steady effort brings the best results. The health score is about stamina only, never a prediction of illness.

Looking back: your past years

Check these against your own life. They are the years your chart marks as hardest since age 12, with the reason for each.

Testing years in your past	Age	What the chart shows	Rating
2009	19	Saturn's Sade Sati: slow results and pressure; change of mahadasha: upheaval in work, money or home; health needed care ★★★	Challenging
2010	20	Saturn's Sade Sati: slow results and pressure; health needed care ★★★	Tough
2011	21	Saturn's Sade Sati: slow results and pressure; health needed care ★★★★★	Tough
2013	23	Saturn's Sade Sati: slow results and pressure; money pressure, expenses or debts; health needed care ★★★★	Challenging
2014	24	Saturn's Sade Sati: slow results and pressure; health needed care ★★★★	Challenging
2016	26	health needed care ★★★	Challenging

Your strongest past years: 2002 (age 12, good), 2005 (age 15, excellent), 2006 (age 16, excellent). Each year's page in section 9 gives the details.

Health care calendar

Years to give your health extra attention: 2027 ★★★★, 2028 ★★★★★, 2029 ★★★★★, 2030 ★★★★, 2041 ★★★★, 2042 ★★★★.

Stars show health care priority: ★★★★★ marks the few years that need the most care (a full check-up, follow-ups kept, no ignored symptoms).
In these years: get a full health check-up early in the year, keep a regular routine of sleep, food and exercise, and do not ignore small symptoms. This is traditional guidance, not a medical prediction: it cannot say whether any illness will happen. Follow your doctor's advice and check-up schedule every year.

Marriage care years

Years when your marriage or relationship needs extra care: 2026, 2043, 2051.

Classically these periods are linked with misunderstandings, distance or separation between partners. They are a caution, not a verdict: with patience, calm talk, shared decisions and early help from an elder or counsellor, most couples come through them stronger.

Money care years

Years to keep money matters conservative: 2026–2029, 2041–2043.

Classically these are periods linked with expenses, debts or losses, or a change of mahadasha when work, money and home shift together. They are a caution, not a verdict: avoid lending, standing guarantee, speculation and hasty big commitments, and keep savings and insurance in order.

Check-ups to keep on your list

Planet or area	Why it is on your list	Check-ups and habits to keep
Jupiter	8th lord, sits in your 12th house	liver function, blood sugar and weight; moderate rich food
Saturn	6th lord	bones, joints and teeth; posture; long-standing complaints followed up, not ignored
Rahu	sits in your 6th house	allergies; no self-medication; a second opinion when symptoms are unclear
Back and spine	a malefic in the 5th or 6th house, or Sun and Saturn linked	posture, core exercise and a proper chair; get back pain checked early

Classically the 6th and 8th houses and the planets linked to them show the parts of the body to look after. These are routine checks for everyone, listed in the order your chart stresses them. They do not mean any illness will happen; your doctor decides what you actually need.

Children's care years

Years to take extra care of children (yours, or when you plan a family): 2027–2028, 2045–2046.

Tradition reads Saturn or Rahu passing the 5th house from your Moon as a time to look after children more closely. In these years keep their check-ups and vaccinations on schedule, take care with travel, sports and water, and give them time and attention, especially around exams. This is a caution, not a prediction: most children are perfectly well in these years.

Money and life goals planner

Each goal is checked by two methods: the classical Parashari rules (dasha periods and Jupiter and Saturn transits) and KP sub-lord timing, using the same KP periods as section 7. A year is listed under **both** when each method marks some part of that calendar year, so the match is by year, not by exact dates. These are the strongest years by these rules; still decide on practical grounds.

These readings follow traditional Vedic and KP astrology rules. They are guidance to help planning, not a proven forecast of events.

Goal	Both systems point to these years	Also possible (one system)
Job change, promotion or new venture	**2027, 2035–2037**	2028–2034, 2038–2043
Buying a home, land or vehicle	**2026, 2032–2033, 2036**	2027, 2031, 2034–2035
Growing savings and investments	**2032–2033, 2036, 2040**	2026–2029, 2031, 2034–2035

Goal	Both systems point to these years	Also possible (one system)
Marriage	**2031**	2027–2030, 2032–2043
Travel or work abroad	–	2026, 2032–2033, 2036

Years to save more and avoid loans, guarantees and risky investments: the money care years above (2026–2029, 2041–2043) and 2037–2040, when Saturn presses on your Moon (Sade Sati or 8th from the Moon) or the year is rated Tough.

How to raise each score

Start with these three: children and family joy, career and status, education and learning. Pick one step from each and do it every week for at least six months; small, regular effort works better than a big effort once.

Your birth chart itself never changes, so no remedy can promise a perfect 10. What steady effort and these remedies do is help you get the very best your chart allows in each area. Traditional remedies support practical effort; they never replace it, and they never replace medical or financial advice.

How to read this report

The report reads your chart in two systems. The main chapters follow classical **Parashari** astrology. Section 7 gives a full **KP (Krishnamurti Paddhati)** analysis: star and sub lords, house significators, what each cusp sub lord promises and KP timing down to the pratyantardasha. Every year in section 9 also carries a **KP view**: the life matters that the running periods activate under KP rules. Where both systems point the same way, the indication is strongest.

This report is built from an actual astronomical calculation of the sky at your birth (Swiss Ephemeris, Lahiri ayanamsa, sidereal zodiac, whole-sign houses). On top of that it follows classical Parashari rules: the Vimshottari dasha (planetary periods) sets the main theme of each phase of life, and the slow transits of Saturn and Jupiter decide when those themes become easy or hard. Each year gets a rating from **Excellent** to **Tough**, based on how favourable the running periods and transits are *relative to the rest of your own life*.

Each year also carries a separate **health sensitivity** level, so a year cannot read as 'good' while the chart points to health strain, and from age 18 a **career sensitivity** level: how strongly the chart points to job offers, joining, switching or promotion that year. High career sensitivity means movement, not automatically good movement; read it together with the year's overall rating.

Each year also lists **traditional indications**: the body areas and conditions that classical texts associate with the planets running that year and with the house Saturn is crossing. They show where tradition says to pay attention. They are not diagnoses and cannot tell you whether any illness will occur; only medical tests can. Keep your doctor's follow-up schedule whatever the chart says.

Rahu Kalam, Yamaganda and Gulika Kalam

Each day, three periods of about 90 minutes are traditionally avoided for starting new things: signing papers, a journey, a purchase, a new job or business, or a ceremony. Routine work and prayer are fine in them. Being born in one of them is common (about one birth in five) and does not decide a life; tradition simply suggests the planet's prayer for that period: Rahu for Rahu Kalam, Yama (the Sun's son, honoured with Saturn) for Yamaganda, and Saturn for Gulika.

Sunday	16:30–18:00	12:00–13:30	15:00–16:30

Saturday	9:00–10:30	13:30–15:00	6:00–7:30

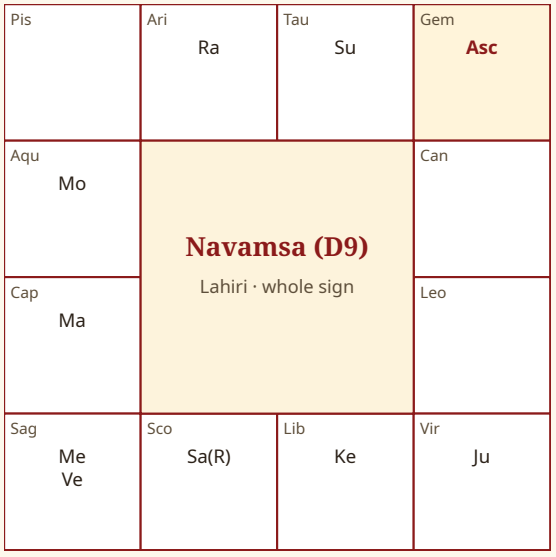

Times assume sunrise at 6:00 and sunset at 18:00. Each period is one eighth of the daytime, so shift them with your local sunrise, or check any daily panchang or calendar app.

Your birth star (janma nakshatra)

Your Moon is in Uttara Phalguni, the star of Aryaman, the god of contracts and friendship. Its symbol is the back legs of a bed and its classical power is to prosper through partnership. Typical traits of this star: reliable, generous, helpful, keeps promises. Your pada adds a flavour of ideals, friends and new ideas, through its navamsa sign Aquarius; its lord Saturn sits in your 5th house, so this quality shows most in that part of life.

Birth star profile

Power (shakti)	to prosper through partnership
Aim of life (purushartha)	Moksha: inner growth, wisdom and freedom
Nature	Fixed (dhruva)
Good days for	laying foundations, buying a home, planting, starting long-term plans (when the Moon is in a fixed star)
Pada falls in navamsa	Aquarius, lord Saturn

Your ascendant (lagna) is in Magha, star of the Pitrs, the ancestors: outwardly you come across as dignified, loyal to family, natural authority, respects roots, with a pada theme of communication and learning.

Planet	Navamsa	Note
Sun	Taurus	
Moon	Aquarius	
Mars	Capricorn	Exalted in D9
Mercury	Sagittarius	
Jupiter	Virgo

Key features and yogas

ॐ

बुद्धियुक्तो जहातीह उभे सुकृतदुष्कृते ।
तस्माद्योगाय युज्यस्व योगः कर्मसु कौशलम् ॥

buddhi-yukto jahātīha ubhe sukṛta-duṣkṛte |
tasmād yogāya yujyasva yogaḥ karmasu kauśalam ||

“One whose mind is steady rises above both good and bad deeds. So give yourself to yoga: yoga is skill in action.”

Bhagavad Gita 2.50 · Mahabharata, Bhishma Parva

Budha-Aditya yoga

Sun and Mercury together in your 1st house (self, body and confidence): sharp intelligence, good communication and recognition through learning.

Sarala yoga (Vipareeta Raja)

Your 8th lord Jupiter sits in the 12th house. Difficulties tend to turn in your favour, and you gain strength through obstacles.

Raja yoga

Your 10th lord Venus and 5th lord Jupiter are together in your 12th house: a classical link between a pillar house and a fortune house that brings recognition and rise, mostly in their dasha periods. It is weakened because one of them sits in a difficult house or sign.

Jupiter with Venus

Jupiter and Venus together in your 12th house (expenses, foreign lands, sleep and spirituality): learning and comfort together; a cultured life.

Jupiter with Ketu

Jupiter and Ketu together in your 12th house (expenses, foreign lands, sleep and spirituality): an inward, spiritual turn of mind.

Venus with Ketu

Venus and Ketu together in your 12th house (expenses, foreign lands, sleep and spirituality): comforts alone don't satisfy; meaning matters more.

Mars is your yogakaraka

Mars rules both a kendra and a trikona (4th, 9th houses), so it is the most helpful planet in your chart. It sits in your 10th house (career and public status).

Exalted Jupiter

Jupiter is exalted in Cancer in your 12th house: its themes (expenses, foreign lands, sleep and spirituality) are a strength.

Rahu in the 6th, Ketu in the 12th

Rahu amplifies desire in health, debts and competition; Ketu brings detachment and sudden turns in expenses, foreign lands, sleep and spirituality.

Chapter 4

Life overview

श्रेयान्स्वधर्मो विगुणः परधर्मात्स्वनुष्ठितात् ।
स्वभावनियतं कर्म कुर्वन्नाप्नोति किल्बिषम् ॥

śreyān sva-dharmo viguṇaḥ para-dharmāt sv-anuṣṭhitāt |
svabhāva-niyataṁ karma kurvan nāpnoti kilbiṣam ||

“Better your own path, even imperfectly followed, than another's path done well. Work that follows your own nature brings no fault.”

Bhagavad Gita 18.47 · Mahabharata, Bhishma Parva

Nature and personality

Leo rising makes you confident, generous and dignified. You like respect and responsibility and shine in leadership; pride is the lesson. A Virgo Moon is practical and self-critical, calmed by order and routine. Your lagna lord Sun sits in the 1st house, so much of life revolves around self, body and confidence.

Career

Your 10th house is Taurus and its lord Venus sits in the 12th house (expenses, foreign lands, sleep and spirituality), with Mars in the 10th. Fields that suit the chart: arts, design, fashion, hospitality, luxury goods, entertainment and vehicles; engineering, technology, real estate, police, defence, surgery and sports. Strong career periods: Rahu mahadasha (2009–2027), Saturn mahadasha (2043–2062). The dasamsa (D10) confirms it: career rises steadily. Your Amatyakaraka (the planet that guides career in Jaimini astrology) is Saturn, in your 5th house: operations, manufacturing, mining, labour-intensive industries, law and long-term service suit you. Foreign links: work or business abroad (10th lord linked to the 12th) and higher study abroad (5th or 9th lord linked to the 12th).

Money

Mercury rules both your 2nd and 11th houses and sits in the 1st. Gains come readily when these lords are well placed. Avoid speculation during Sade Sati and Ashtama Shani years (marked in the yearly pages).

Health constitution

Traditional tendencies for Leo lagna: heart, spine and blood pressure. Planets in the 6th, 8th or 12th (Jupiter, Venus) add sensitivity in their areas. Lagna lord Sun is own sign, which supports vitality. Sensitive phases: Sade Sati, Ashtama Shani, and the periods of the 6th lord (Saturn) and 8th lord (Jupiter).

Marriage

Your 7th house is Aquarius, empty; its lord Saturn sits in the 5th house, and Venus is in Cancer. Classically this suggests marriage after some delay or effort, to a mature, responsible partner. The periods of Saturn and Venus are the main marriage times. The navamsa (D9) shows a good marriage that needs give-and-take. The 7th lord is linked to the 5th house of romance, a classical sign of a love marriage or a partner you choose yourself. The 7th lord is retrograde, so marriage may take a roundabout route, such as a second proposal or an unexpected meeting. Saturn and the Moon are linked (Punarphoo yoga): proposals may get postponed or need a second round, so delays here mean patience, not denial.

Children

Your 5th house is Sagittarius with Saturn in it; its lord Jupiter is in the 12th house and Jupiter, the karaka for children, is in the 12th. Children may come after some delay or with care. Jupiter's periods are the classical times for children.

Turning-point periods

Your lagna lord Sun is in the star of Ketu, and Ketu is in the star of Saturn. Classically, life turns most clearly when these planets run together: Sun–Ketu (1990–1991); Saturn–Ketu (2048–2050); Saturn–Sun (2053–2054). Expect a change of direction in work, home or relationships then; plan big decisions carefully.

Quick chart check (five steps)

Your lagna lord Sun is not directly linked to the 5th or 9th lord, so results come mainly through your own effort rather than luck. It is also linked to the 2nd lord, so self-effort turns into money and status. No malefic pairs press on each other, which keeps life's friction moderate.

Chapter 5

Vimshottari dasha timeline

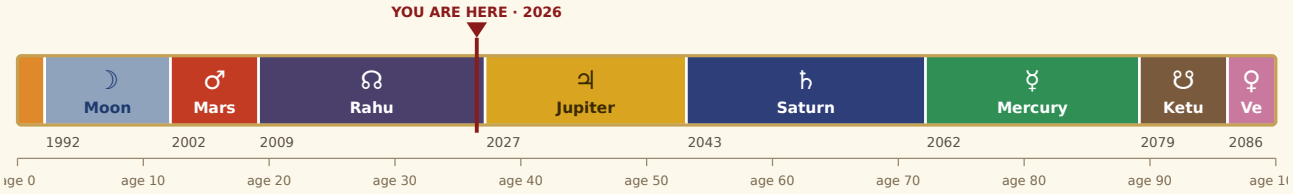

यदा यदा हि धर्मस्य ग्लानिर्भवति भारत ।
अभ्युत्थानमधर्मस्य तदात्मानं सृजाम्यहम् ॥

“Whenever dharma declines and its opposite rises, O Bharata, then I bring Myself forth.”

Bhagavad Gita 4.7 · Mahabharata, Bhishma Parva

Your Moon is in Uttara Phalguni, ruled by Sun, so life began in Sun mahadasha, with a balance of Sun 1y 6m 22d at birth. Traditional panchangs can differ by a few months; if your birth horoscope gives a different balance, you can enter it when ordering and the report uses it.

Sade Sati and other Saturn phases

Sade Sati is Saturn's roughly 7½-year passage over the 12th, 1st and 2nd signs from your Moon (Leo, Virgo, Libra). Ashtama Shani is Saturn in the 8th from the Moon (Aries) and Kantaka Shani is Saturn in the 4th (Sagittarius). These are the years when effort feels heavy and health needs more care.

Chapter 7

KP astrology (Krishnamurti Paddhati)

न हि ज्ञानेन सदृशं पवित्रमिह विद्यते ।
तत्स्वयं योगसंसिद्धः कालेनात्मनि विन्दति ॥

na hi jñānena sadṛśaṁ pavitram iha vidyate |
tat svayaṁ yoga-saṁsiddhaḥ kālenātmani vindati ||

"Nothing in this world purifies like knowledge. One perfected in yoga finds it within, in due time."

Bhagavad Gita 4.38 · Mahabharata, Bhishma Parva

KP is a modern refinement of Vedic astrology, created by Prof. K. S. Krishnamurti. It divides every nakshatra into nine unequal **sub** parts and judges each matter by the **sub lord** of the related house cusp: the cusp sub lord decides whether a matter is promised at all, and the dasha periods of its significators decide when it happens. Houses are measured with the Placidus system and the KP ayanamsa (23°37'), so planets can sit in a different house here than in the Parashari chart in section 1. This chapter gives the full KP analysis, and every year in section 9 also carries a KP reading.

Birth time matters more in KP. A sub lord changes every few minutes of birth time, especially for the Ascendant and the house cusps. If your recorded time is approximate, read KP as a second opinion and give more weight to the Parashari chapters, which are much less sensitive to small time errors. Where you supplied life events, the 'KP check' in 'Life events on record' is the best test of the birth time.

A planet **signifies** the houses occupied and owned by its star lord (strongest) and the houses it occupies and owns itself. Rahu and Ketu also carry the results of their sign lord.

House significators (four levels)

KP ranks the planets connected to each house from strongest (A) to weakest (D). A planet in level A or B gives that house's results most clearly in its periods.

House	A: in star of occupants	B: occupants	C: in star of owner	D: owner
1	Venus	Mercury	Moon, Mars, Mercury	Sun
2	Rahu	Moon	Venus	Mercury
3	–	–	Saturn	Venus
4	–	–	–	Mars
5	Jupiter, Ketu	Saturn	–	Jupiter
6	–	Rahu	Jupiter, Ketu	Saturn
7	–	–	Jupiter, Ketu	Saturn
8	–	–	–	Jupiter
9	–	Mars	–	Mars
10	–	–	Saturn	Venus
11	–	Jupiter	Venus	Mercury
12	Sun, Moon, Mars, Mercury, Saturn	Sun, Venus, Ketu	Rahu	Moon

Ruling planets at birth

The ruling planets of the birth moment are used in KP to confirm the birth time and to pick the periods that act first. **Day lord**: Jupiter; **Ascendant sign lord**: Sun; **Ascendant star lord**: Ketu; **Moon sign lord**: Mercury; **Moon star lord**: Sun. Sun appears more than once and is the strongest.

All twelve cusp sub lords

Each cusp sub lord shows how that house works in your life. When it signifies its own house and the 2nd or 11th from it, that house gives clear results.

What the cusp sub lords promise

In KP a matter happens in life only if the sub lord of its house cusp signifies the supporting houses. The table gives the verdict and the planets whose periods deliver it.

Health in KP is read only as general vitality from the Ascendant sub lord. It is not a diagnosis; see a doctor for any health concern and keep regular check-ups.

When: KP timing windows

KP times an event to the periods whose lords signify the supporting houses. As KP Reader 1 directs, these dates count the Vimshottari dasha from the Moon in the KP zodiac, so they can start a few weeks apart from the dates in section 5. Events usually happen when a window meets supportive transits in the year-by-year section.

Fine timing: pratyantardasha

Within a favourable antardasha, KP narrows the date to the pratyantardasha (sub-sub period) whose lord also signifies the matter. These are the most likely stretches for the event itself. The **Sun trigger** dates are when the Sun crosses the point whose sign, star and sub lords are the three running period lords: KP Readers 4 and 5 use this to find the week. When the Sun crosses no such point inside the period, a **Sun near-trigger** is shown instead: the Sun in the star of the dasha or antardasha lord and the sub of the pratyantardasha lord, a looser working form. Dates are for your birthplace's time zone. Treat them as the likeliest days, not certainties.

Period ☉ Sun – ☿ Mercury

♃ Jupiter in ♊ Gemini · ♄ Saturn in ♐ Sagittarius

Good

Health sensitivity: Low · **Health care priority** ★☆☆☆☆ · **Personal year 5** (change and travel)

Periods: Sun–Mercury, then Sun–Ketu. The Mercury sub-period brings Mercury, lord of your 2nd and 11th placed in the 1st (self, body and confidence) into focus; for your chart this is a supportive influence layered on the broader Sun story of status and father. Jupiter is in Gemini until July (10th from your Moon, 11th from lagna), then in Cancer from August (11th from your Moon, 12th from lagna). Saturn is in Sagittarius until March (4th from your Moon, 5th from lagna), then in Capricorn from April (5th from your Moon, 6th from lagna), then in Sagittarius from July (4th from your Moon, 5th from lagna), then in Capricorn from December (5th from your Moon, 6th from lagna).

✔ **Tip for the year.** Traditional remedy: chant 'Om Suryaya Namah' 108 times at sunrise and keep a disciplined morning routine. Why: Sun is the period lord that needs support (it signifies the 6th, 8th and 12th houses).

♛ **Work, studies and money**	A formative year at home; the family's circumstances shape the year more than anything personal.
✚ **Health**	Generally healthy; watch minor falls and stomach upsets.
◉ **Body areas to watch**	Sun: heart, blood pressure, eyes, bones, fevers and low vitality; Mercury (2nd lord): nerves, skin allergies, breathing and speech, anxiety; Ketu: fevers, skin, sudden minor injuries and unexplained pains; Saturn transiting your 5th house: stomach and upper abdomen. Keep up regular medical check-ups. *(Classically linked to this year's planets; not a diagnosis.)*
♥ **Family, marriage and children**	A quiet family year: Mercury's period does not strongly touch the family houses (4th, 5th, 7th, 9th).

CROSS-CHECKS

✦ **Ashtakavarga**	Jupiter transits Gemini with 4/8 of its points (supportive); Saturn transits Sagittarius with 2/8 (weak). Total points (SAV) in those signs: 39 and 27 (strong and average; 28 or more helps, under 25 needs more effort).

1991 · age 1

Period ☉ Sun – ♀ Venus

♃ Jupiter in ♋ Cancer · ♄ Saturn in ♑ Capricorn

Mixed

Health sensitivity: Low · **Health care priority** ★☆☆☆☆ · **Personal year 6** (family and responsibility)

Periods: Sun–Ketu, then Sun–Venus. The Venus sub-period brings Venus, lord of your 3rd and 10th placed in the 12th (expenses, foreign lands, sleep and spirituality) into focus; for your chart this is a mixed influence layered on the broader Sun story of status and father. Jupiter is in Cancer until July (11th from your Moon, 12th from lagna), then in Leo from August (12th from your Moon, 1st from lagna). Saturn stays in Capricorn all year (5th from your Moon, 6th from lagna). Jupiter 11th from your Moon is favourable, especially for expenses, foreign lands and rest (the house it crosses from your lagna).

✔ **Tip for the year.** Traditional remedy: keep your home clean and fragrant; offer white flowers on Fridays. Why: Venus is the period lord that needs support (it signifies the 12th house).

♛ **Work, studies and money**	A formative year at home; Venus's period puts the focus on siblings.
✚ **Health**	Childhood immunity is the theme; seasonal colds or fevers need normal care.
◉ **Body areas to watch**	Sun: heart, blood pressure, eyes, bones, fevers and low vitality; Ketu: fevers, skin, sudden minor injuries and unexplained pains; Venus: kidneys, urinary tract, hormones, reproductive organs and blood sugar; Saturn transiting your 6th house: digestion and intestines; Jupiter transiting your 12th house: feet, sleep and eyes. Keep up regular medical check-ups. *(Classically linked to this year's planets; not a diagnosis.)*
♥ **Family, marriage and children**	A quiet family year: Venus's period does not strongly touch the family houses (4th, 5th, 7th, 9th).

CROSS-CHECKS	
✦ **Ashtakavarga**	Jupiter transits Cancer with 2/8 of its points (weak); Saturn transits Capricorn with 2/8 (weak). Total points (SAV) in those signs: 24 and 27 (weak and average; 28 or more helps, under 25 needs more effort).
↗ **Progressions**	progressed Sun square natal MC: testing; progressed Moon square natal Saturn (around Jul): testing. *(Secondary progressions, a timing cross-check.)*

1992 · age 2 Period ☽ Moon ♃ Jupiter in ♌ Leo · ♄ Saturn in ♑ Capricorn Good

Health sensitivity: Low · **Health care priority** ★☆☆☆☆ · **Personal year 7** (reflection and rest)

Periods: Sun–Venus, then Moon–Moon. The Moon period begins, activating Moon, lord of your 12th placed in the 2nd (money, family and speech). The main themes are emotions, mother, travel and public dealings. A new chapter opens: Moon mahadasha begins in March 1992 and runs to March 2002. Jupiter is in Leo until August (12th from your Moon, 1st from lagna), then in Virgo from September (1st from your Moon, 2nd from lagna). Saturn stays in Capricorn all year (5th from your Moon, 6th from lagna). Jupiter 12th from your Moon is a weak transit: guard savings and avoid overcommitting in self and health.

✔ **Tip for the year.** Traditional remedy: keep Mondays light, drink enough water and meditate for ten minutes daily. Why: Moon is the period lord that needs support (it signifies the 12th house).

♛ **Work, studies and money**	A formative year at home; the family's circumstances shape the year more than anything personal.
✚ **Health**	Good vitality overall, with routine childhood illnesses only.
◉ **Body areas to watch**	Sun: heart, blood pressure, eyes, bones, fevers and low vitality; Venus: kidneys, urinary tract, hormones, reproductive organs and blood sugar; Moon (12th lord): sleep, anxiety and mood, fluid retention, coughs and colds, chest; Saturn transiting your 6th house: digestion and intestines. Keep up regular medical check-ups. *(Classically linked to this year's planets; not a diagnosis.)*

2006 · age 16 Period ♂ Mars – ☿ Mercury

♃ Jupiter in ♎ Libra · ♄ Saturn in ♋ Cancer

Excellent

Health sensitivity: Low · **Health care priority** ★☆☆☆☆ · **Personal year 3** (growth and expression)

Periods: Mars–Mercury, then Mars–Ketu. The Mercury sub-period brings Mercury, lord of your 2nd and 11th placed in the 1st (self, body and confidence) into focus; for your chart this is a supportive influence layered on the broader Mars story of drive, property and career rise. Jupiter is in Libra until October (2nd from your Moon, 3rd from lagna), then in Scorpio from November (3rd from your Moon, 4th from lagna). Saturn is in Cancer until October (11th from your Moon, 12th from lagna), then in Leo from November (12th from your Moon, 1st from lagna). Saturn 11th from your Moon is a supportive transit: expenses, foreign lands and rest matters move with steady effort. Jupiter 2nd from your Moon is favourable, especially for courage, siblings, short travel and paperwork (the house it crosses from your lagna).

✔ **Tip for the year.** Traditional remedy: read every document twice before signing; feed green grass to cows. Why: Mercury is the period lord that needs support (it signifies the 12th house). Sade Sati starts this year: Hanuman Chalisa or Shani worship on Saturdays is the classical support for the next 7½ years.

♛ **Work, studies and money**	An ordinary study year: Mercury's period has no strong link to the education houses, so results follow effort.
✚ **Health**	Health looks steady in the chart this year. Keep an eye on nerves, skin and breathing and keep up regular check-ups.
◉ **Body areas to watch**	Mars: blood pressure, acidity, inflammation, injuries and cuts; Mercury (2nd lord): nerves, skin allergies, breathing and speech, anxiety; Ketu: fevers, skin, sudden minor injuries and unexplained pains; Saturn transiting your 12th house: feet, sleep and eyes. Keep up regular medical check-ups. *(Classically linked to this year's planets; not a diagnosis.)*
♥ **Family, marriage and children**	A quiet family year: Mercury's period does not strongly touch the family houses (4th, 5th, 7th, 9th).

CROSS-CHECKS	
✦ **Ashtakavarga**	Jupiter transits Libra with 3/8 of its points (weak); Saturn transits Cancer with 3/8 (weak). Total points (SAV) in those signs: 30 and 24 (strong and weak; 28 or more helps, under 25 needs more effort).
↗ **Progressions**	progressed Ascendant trine natal Saturn: supportive; progressed Moon trine natal Sun (around Jun): supportive; progressed Moon square natal Jupiter (around Jul): testing. *(Secondary progressions, a timing cross-check.)*
◈ **KP view**	Mars–Mercury until Aug: same themes, continues from 2005; Mars–Ketu from Aug: studies, foreign travel (most likely: a sibling does well; a setback in studies or an exam).

Jupiter is in Sagittarius until November (4th from your Moon, 5th from lagna), then in Capricorn from December (5th from your Moon, 6th from lagna). Saturn stays in Leo all year (12th from your Moon, 1st from lagna). Sade Sati is running, rising (first) phase: progress comes through patience, routine and less ego, not shortcuts. 2046 · age 56 Period ♄ Saturn – ☿ Mercury

♃ Jupiter in ♓ Pisces · ♄ Saturn in ♏ Scorpio

Excellent

Health sensitivity: Low · **Health care priority** ★☆☆☆☆ · **Career sensitivity: Very high** · **Personal year 7** (reflection and rest)

Periods: Saturn–Saturn, then Saturn–Mercury. The Mercury sub-period brings Mercury, lord of your 2nd and 11th placed in the 1st (self, body and confidence) into focus; for your chart this is a supportive influence layered on the broader Saturn story of duty, discipline and long-term results. Jupiter is in Aquarius until February (6th from your Moon, 7th from lagna), then in Pisces from March (7th from your Moon, 8th from lagna). Saturn is in Scorpio until November (3rd from your Moon, 4th from lagna), then in Sagittarius from December (4th from your Moon, 5th from lagna). Saturn 3rd from your Moon is a supportive transit: home, mother, property and vehicles matters move with steady effort. Jupiter 7th from your Moon is favourable, especially for sudden changes and hidden matters (the house it crosses from your lagna).

✔ **Tip for the year.** Traditional remedy: keep up the Saturn remedies; this year, donate black sesame or mustard oil on Saturdays; be fair to people who work for you.

♛ **Work, studies and money**	Career sensitivity is very high this year because Jupiter aspects your 10th house or its lord for 10 months; Saturn aspects your 10th house or its lord; Saturn is in a growth house (3rd, 6th, 10th or 11th) from your Moon. The Saturn–Mercury period itself adds no new push, so expect movement (offers, transfers or new duties) through these transits and period changes rather than a jump in pay. Money: in Mercury's sub-period expenses tend to run ahead of income (12th house); avoid lending, guarantees and speculation. Foreign travel, or work connected with another country, is indicated (sharpest in Mar–Dec).
✚ **Health**	Vitality is strong; a good year to build exercise habits.
◉ **Body areas to watch**	Saturn (6th lord, 7th lord): chronic and slow-developing conditions, joints, back, teeth, fatigue and low mood; Mercury (2nd lord): nerves, skin allergies, breathing and speech, anxiety; Saturn transiting your 4th house: chest, heart and breasts; Jupiter transiting your 8th house: reproductive and excretory organs. Keep up regular medical check-ups. *(Classically linked to this year's planets; not a diagnosis.)*
♥ **Family, marriage and children**	A quiet family year: Mercury's period does not strongly touch the family houses (4th, 5th, 7th, 9th).

CROSS-CHECKS

Health sensitivity: Low · **Health care priority** ★☆☆☆☆ · **Career sensitivity: High** · **Personal year 4** (hard work and foundations)

The whole year runs under Venus mahadasha with Venus antardasha. Still in Venus–Venus: expect continuity rather than a fresh start in comforts and relationships. Jupiter is in Virgo until September (1st from your Moon, 2nd from lagna), then in Libra from October (2nd from your Moon, 3rd from lagna). Saturn is in Aries until July (8th from your Moon, 9th from lagna), then in Taurus from August (9th from your Moon, 10th from lagna), then in Aries from November (8th from your Moon, 9th from lagna). Saturn is 8th from your Moon (Ashtama Shani): expect obstacles, delays and fatigue; avoid risky bets and keep health checks regular. In KP terms Saturn moves in Sun's star mid-year, which gives mixed results: steady effort works best.

✔ **Tip for the year.** Traditional remedy: keep up the Venus remedies; this year, keep relationships honest and donate white sweets or rice on Fridays.

♛ **Work, studies and money**	Retirement years, Venus–Venus period: pension, savings or family support keep income steady. Money: income and savings grow (sharpest in Jan–May).
✚ **Health**	Some health ups and downs around kidneys, urinary and reproductive health; don't ignore small symptoms.
◉ **Body areas to watch**	Venus: kidneys, urinary tract, hormones, reproductive organs and blood sugar; Saturn transiting your 9th house: hips and thighs. Keep up regular medical check-ups. *(Classically linked to this year's planets; not a diagnosis.)*
♥ **Family, marriage and children**	Family life continues as last year under Venus's sub-period.

CROSS-CHECKS	
✦ **Ashtakavarga**	Jupiter transits Virgo with 4/8 of its points (supportive); Saturn transits Aries with 3/8 (weak). Total points (SAV) in those signs: 20 and 25 (weak and average; 28 or more helps, under 25 needs more effort).
◈ **KP view**	Venus–Venus: same themes, continues from 2086.

2089 · age 99 Period ♀ Venus ♃ Jupiter in ♎ Libra · ♄ Saturn in ♉ Taurus Mixed

Health sensitivity: Low · **Health care priority** ★☆☆☆☆ · **Career sensitivity: Moderate** · **Personal year 5** (change and travel)

Periods: Venus–Venus, then Venus–Sun. Venus's sub-period carries on; what began last year around comforts and relationships matures now. Jupiter is in Libra until October (2nd from your Moon, 3rd from lagna), then in Scorpio from November (3rd from your Moon, 4th from lagna). Saturn is in Aries until March (8th from your Moon, 9th from lagna), then in Taurus from April (9th from your Moon, 10th from lagna). Jupiter 2nd from your Moon is favourable, especially for courage, siblings, short travel and paperwork (the house it crosses from your lagna).

✔ **Tip for the year.** Traditional remedy: keep up the Venus remedies; this year, Lakshmi puja on Fridays and respect women in the family.

♛ **Work, studies and money**	Retirement years, Venus–Venus period: pension, savings or family support keep income steady. Money: income and savings grow (sharpest in May–Sep, Sep–Dec).
✚ **Health**	Stress shows up in the body; manage kidneys, urinary and reproductive health with diet and rest.
◉ **Body areas to watch**	Venus: kidneys, urinary tract, hormones, reproductive organs and blood sugar; Sun: heart, blood pressure, eyes, bones, fevers and low vitality; Saturn transiting your 10th house: knees and joints. Keep up regular medical check-ups. *(Classically linked to this year's planets; not a diagnosis.)*
♥ **Family, marriage and children**	Family life continues as last year under Venus's sub-period.

CROSS-CHECKS	
✦ **Ashtakavarga**	Jupiter transits Libra with 3/8 of its points (weak); Saturn transits Taurus with 6/8 (supportive). Total points (SAV) in those signs: 30 and 38 (strong and strong; 28 or more helps, under 25 needs more effort).
◈ **KP view**	Venus–Venus until Jun: same themes, continues from 2086; Venus–Sun from Jun: marriage, career moves, income and savings, children, home, vehicle or property, foreign travel, business and partnerships (most likely: money, gifts or help come through other people; winning a dispute, contest or competition).

2090 · age 100

Period ♀ Venus – ☉ Sun

♃ Jupiter in ♏ Scorpio · ♄ Saturn in ♉ Taurus

Mixed

Health sensitivity: Low · **Health care priority** ★☆☆☆☆ · **Career sensitivity: Moderate** · **Personal year 6** (family and responsibility)

Periods: Venus–Sun, then Venus–Moon. The Sun sub-period brings Sun, lord of your 1st placed in the 1st (self, body and confidence) into focus; for your chart this is a supportive influence layered on the broader Venus story of comforts and relationships. Jupiter is in Scorpio until November (3rd from your Moon, 4th from lagna), then in Sagittarius from December (4th from your Moon, 5th from lagna). Saturn is in Taurus until September (9th from your Moon, 10th from lagna), then in Gemini from October (10th from your Moon, 11th from lagna), then in Taurus from November (9th from your Moon, 10th from lagna).

✔ **Tip for the year.** Traditional remedy: keep up the Venus remedies; this year, chant 'Om Shukraya Namah' on Fridays; avoid overspending on luxury.

♛ **Work, studies and money**	Retirement years, Venus–Sun period: pension, savings or family support keep income steady. Money: income and savings grow, as Sun signifies the 2nd and 11th houses (sharpest in Jan, Apr–Sep, Oct–Dec). Foreign travel, or work connected with another country, is indicated (sharpest in Jan–Dec).
✚ **Health**	Moderate health care needed: kidneys, urinary and reproductive health may need attention. Regular check-ups and sleep matter.
◉ **Body areas to watch**	Venus: kidneys, urinary tract, hormones, reproductive organs and blood sugar; Sun: heart, blood pressure, eyes, bones, fevers and low vitality; Moon (12th lord): sleep, anxiety and mood, fluid retention, coughs and colds, chest; Saturn transiting your 10th house: knees and joints. Keep up regular medical check-ups. *(Classically linked to this year's planets; not a diagnosis.)*
♥ **Family, marriage and children**	Children's studies, careers or marriages come into focus, with good news likely.

CROSS-CHECKS	
✦ **Ashtakavarga**	Jupiter transits Scorpio with 6/8 of its points (supportive); Saturn transits Taurus with 6/8 (supportive). Total points (SAV) in those signs: 27 and 38 (average and strong; 28 or more helps, under 25 needs more effort).
◈ **KP view**	Venus–Sun until Jun: same themes, continues from 2089; Venus–Moon from Jun: career moves, business and partnerships.

Chapter 10

Doshas and their remedies

नेहाभिक्रमनाशोऽस्ति प्रत्यवायो न विद्यते ।
स्वल्पमप्यस्य धर्मस्य त्रायते महतो भयात् ॥

nehābhikrama-nāśo'sti pratyavāyo na vidyate |
sv-alpam apy asya dharmasya trāyate mahato bhayāt ||

"On this path no effort is ever lost and no harm is done. Even a little of this practice protects from great fear."

Bhagavad Gita 2.40 · Mahabharata, Bhishma Parva

Every classical dosha was checked against your chart. Those not present are listed too, so nothing needs a separate search.

Dosha	Status	Why	Traditional remedy
Mangal (Kuja) dosha	Not present	Mars is not in a dosha house.	No remedy needed.
Kaal Sarp dosha	Not present	The planets lie on both sides of the Rahu–Ketu axis, so the yoga does not form.	No remedy needed.
Sade Sati	Periodic	Saturn in Leo, Virgo or Libra (12th, 1st and 2nd from your Moon): next Aug 2036 to Aug 2044.	Saturday Hanuman Chalisa; Shani stotra; light a sesame-oil lamp; donate black urad and sesame; serve elders and labourers; avoid shortcuts.
Ashtama Shani	Periodic	Saturn in Aries, 8th from your Moon: next Jun 2027 to Apr 2030.	Same as Sade Sati, plus regular health check-ups and no risky investments or lending during this phase.
Kantaka (Ardhastama) Shani	Periodic	Saturn in Sagittarius, 4th from your Moon: next Dec 2046 to Dec 2049.	Milder than Sade Sati: home, property and mother's matters need care; avoid property disputes. A good dasha running at the same time softens all Saturn phases.
Pitru dosha	Not present	The Sun and the 9th house are free of Rahu, Ketu and Saturn.	Traditional Amavasya tarpanam for ancestors is still good practice.
Guru Chandal dosha	Present	Jupiter is with Ketu.	Worship of Ganesha; Jupiter's remedy: Dakshinamurthy / Guru stotra.
Grahan (Sun) dosha	Not present	Sun is not with Rahu or Ketu.	No remedy needed.
Grahan (Moon) dosha	Not present	Moon is not with Rahu or Ketu.	No remedy needed.
Shrapit dosha	Not present	Saturn is not with Rahu.	No remedy needed.
Angarak dosha	Not present	Mars is not with Rahu or Ketu.	No remedy needed.
Kemadruma dosha	Not present	Mercury sits beside or with the Moon, which prevents Kemadruma.	No remedy needed.

Computer-generated report · traditional astrological interpretation, not medical, financial or life advice.

Dosha	Status	Why	Traditional remedy
Badhaka (obstruction)	Note	For a fixed lagna the 9th lord is the badhaka. Mars rules your 9th and sits in the 10th, so its matters can arrive with hurdles or through others.	Hanuman Chalisa; Subramanya worship; donate red lentils, jaggery, red cloth on Tuesdays.

Chapter 11

Navagraha mantras and remedies

महर्षीणां भृगुरहं गिरामस्म्येकमक्षरम् ।
यज्ञानां जपयज्ञोऽस्मि स्थावराणां हिमालयः ॥

maharṣīṇāṁ bhṛgur ahaṁ girām asmy ekam akṣaram |
yajñānāṁ japa-yajño'smi sthāvarāṇāṁ himālayaḥ ||

“Among the great sages I am Bhrigu; among words I am the one syllable Om; among offerings I am japa, the quiet repetition of a mantra; among things that stand still, the Himalaya.”

Bhagavad Gita 10.25 · Mahabharata, Bhishma Parva

The count is the traditional full japa for the planet, spread over 40 days or done with a priest. For daily practice, 108 repetitions on the planet's day are enough. Focus first on the current mahadasha and antardasha lords.

Chapter 17

Ashtakavarga

अनन्याश्चिन्तयन्तो मां ये जनाः पर्युपासते ।
तेषां नित्याभियुक्तानां योगक्षेमं वहाम्यहम् ॥

ananyāś cintayanto māṁ ye janāḥ paryupāsate |
teṣāṁ nityābhiyuktānāṁ yoga-kṣemaṁ vahāmy aham ||

"To those who think of Me with undivided devotion, ever united with Me, I bring what they lack and protect what they have."

Bhagavad Gita 9.22 · Mahabharata, Bhishma Parva

Ashtakavarga scores every sign from 0 to 8 for each planet, from the positions of all seven planets and the ascendant (BPHS chapters 66–67). The total (Sarvashtakavarga) is always 337. Signs with 28 or more points are strong for you; below 25 are weak. A transit through a high-scoring sign works out better.

Planet	Ari	Tau	Gem	Can	Leo	Vir	Lib	Sco	Sag	Cap	Aqu	Pis	Total

Your strongest houses: house 11 (gains and income) 39; house 10 (career) 38; house 3 (courage and siblings) 30. **Weakest:** house 2 (wealth and family) 20; house 1 (self and health) 24; house 12 (expenses and foreign lands) 24. The 11th house (39) scoring above the 12th (24) means income tends to exceed expenses

Transit strength by Ashtakavarga (Jupiter 4+ and Saturn 4+ points in the transited sign give good results)

Chapter 18

Shadbala: planet strengths

यद्यद्विभूतिमत्सत्त्वं श्रीमदूर्जितमेव वा ।
तत्तदेवावगच्छ त्वं मम तेजोंऽशसम्भवम् ॥

yad yad vibhūtimat sattvaṁ śrīmad ūrjitam eva vā |
tat tad evāvagaccha tvaṁ mama tejo-'ṁśa-sambhavam ||

"Whatever is glorious, beautiful or mighty, know that it springs from a spark of My splendour."

Bhagavad Gita 10.41 · Mahabharata, Bhishma Parva

Shadbala measures each planet's strength from six sources (BPHS chapter 27): position (sthana), direction (dig), time (kala), motion (chesta), natural strength (naisargika) and aspects (drik). Values are in virupas (60 virupas = 1 rupa). A planet above its required rupas can deliver its promises in its dasha. Shadbala is shown as a separate check: it does not feed the year ratings or the Life Report Card scores.

Strongest: Sun, Mars, Jupiter, Mercury, Saturn. These planets' dashas and significations tend to deliver well. **Below required strength:** Moon, Venus. Their dashas need more effort, and their remedies (chapter 12) help most. Different software can differ by a few virupas because of small differences in sunrise and ayana formulas; the ranking is what matters.

Yogini dasha and the Jaimini system

“I am seated in the hearts of all; from Me come memory, knowledge and their loss. I am what all the Vedas seek to know, the maker of Vedanta and the knower of the Vedas.”

Bhagavad Gita 15.15 · Mahabharata, Bhishma Parva

Two more timing systems are used alongside Vimshottari. When all three point to the same period, that period is the most reliable for timing events.

Chapter 20

Lal Kitab

दातव्यमिति यद्दानं दीयतेऽनुपकारिणे ।
देशे काले च पात्रे च तद्दानं सात्त्विकं स्मृतम् ॥

dātavyam iti yad dānaṁ dīyate 'nupakāriṇe |
deśe kāle ca pātre ca tad dānaṁ sāttvikaṁ smṛtam ||

"A gift given because giving is right, to one who cannot return it, at the right place and time and to a worthy person, is called pure (sattvic)."

Bhagavad Gita 17.20 · Mahabharata, Bhishma Parva

Lal Kitab is a separate folk tradition from North India. It sets aside the signs: your lagna becomes house No. 1, drawn in the first (Aries) box for everyone, and each planet is read by the house it occupies counted from the lagna. Its remedies are simple household practices.

Planet	House	Pakka ghar	Note
Sun	1	1	in its own permanent house: strong
Moon	2	4	
Mars	10	3, 8	
Mercury	1	7	
Jupiter	12	2, 5, 9, 12	in its own permanent house: strong
Venus	12	7	
Saturn	5	8, 10	
Rahu	6	12	
Ketu	12	6	

Your planets in Lal Kitab

What the book says about each of your planets in its house, and the household remedies it gives for that placement. Pick one or two remedies for the planets that matter most in your current dasha; there is no need to do them all.

Planet	Lal Kitab reading	Traditional remedies
Sun House 1	The Sun in the ascendant gives a royal, self-made and charitable nature with power, authority and long-lasting official support. A rash temper and some tendency toward indulgence need watching; honest earning keeps the Sun bright.	• Earn only through honest means • Help the poor and support charitable works • Offer water to the rising Sun
Moon House 2	The Moon in the second is exalted: self-earned wealth, respect, good education and a close bond with the mother are indicated. Its blessings stay strong while Moon items such as rice and silver are kept at home.	• Keep rice and silver, ideally received from your mother, at home • Give green cloth to young girls for 43 days • Serve elderly people

Computer-generated report · traditional astrological interpretation, not medical, financial or life advice.

Planet	Lal Kitab reading	Traditional remedies
Mars House 10	Mars in the tenth can lift a family from modest beginnings to comfort, giving courage, property and a kingly lifestyle. Saturn decides its direction, and parting with family gold is said to bring setbacks.	• Serve and worship Lord Hanuman • Eat and share sweets • Do not sell family gold ornaments
Mercury House 1	Mercury in the first gives a sharp, independent mind, good earnings and favour from superiors, and brings fortune to sisters and daughters. The person should guard against restlessness and careless speech, and does best when settled in one place of work.	• Avoid wearing green • Keep relations with in-laws, especially a sister-in-law, formal and respectful • Stay settled in one place of work rather than moving around
Jupiter House 12	Jupiter in the twelfth gives a kind, spiritual and generous nature; wealth grows as you share it and your blessings carry weight. Spending can run high, and deception or false testimony is said to spoil this placement.	• Keep a vessel of water by your bed at night • Serve saints and holy people • Never give false evidence or deceive others
Venus House 12	Venus in the twelfth is called a helping deity in hard times: fortune often rises after marriage and the spouse becomes a source of comfort and rescue. Respect for the spouse and devotion keep this placement at its best.	• Worship your family deity regularly • Serve and feed a cow • Show respect and gratitude to your spouse
Saturn House 5	Saturn in the fifth makes a person independent, curious and self-made, with Ketu showing the state of children and Rahu that of property. Care is needed with new property decisions and family matters, which go better when guided by patience rather than haste.	• Take almonds to a temple, leave half there and bring half home (keep them, do not eat them) • Distribute salty snacks instead of sweets when celebrating a child's birth • Keep items of the Sun, Moon and Mars (jaggery, copper, rice, silver, honey) in the ancestral home
Rahu House 6	Rahu in the sixth is a helpful elephant: intelligent, protective of others, successful against opponents and steadily promoted. Good relations with brothers and sisters are essential, as quarrels with them turn its luck around.	• Keep or feed a jet-black dog • Keep a small round ball of lead or black glass at home • Maintain good relations with your siblings
Ketu House 12	Ketu in the twelfth brings comfort, a decent home, gains through journeys, promotions and a prosperous family, with Saturn, Venus and Jupiter all favourable. Worship and care of animals keep this placement at its best.	• Keep and care for a dog • Worship regularly to strengthen Ketu • Dip your thumb in milk and suck it when facing money troubles

Ancestral debts (pitri rin and others)

Debt (rin)	Rule	Traditional remedy
Pitri rin (ancestors' debt)	Venus, Mercury or Rahu in the 2nd, 5th, 9th or 12th	Collect an equal coin from every family member and offer it together at a temple on one day; serve elders and keep a peepal tree watered.
Stri rin (debt to women of the family)	Sun, Moon or Rahu in the 2nd or 7th	Feed cows together as a family on one day; respect and support the women of the family.
Bandhu rin (relatives' debt)	Mercury or Ketu in the 1st or 8th	Collect money from family members and donate it towards someone's medical treatment.
Zulm rin (debt of cruelty)	Sun, Moon or Mars in the 10th or 11th (Saturn's houses)	Feed labourers or 100 people together as a family on one day; never take land or property by pressure or deceit.
Ajanma rin (debt from strangers)	Sun, Venus or Mars in the 12th	Collect a coconut from each family member and offer them into flowing water on one day.

Not present in your chart: Matri rin, Behen rin, Swayam rin, Kudrati rin.

Lal Kitab remedies are done once, together as a family where the rule says so. They are traditional practices, offered as faith, not as guarantees.

Bhagavad Gita 11.12 · Mahabharata, Bhishma Parva

Western astrology uses the tropical zodiac, which today runs about 23.7° ahead of the Vedic (sidereal) one, so most planets move one sign forward. It also includes Uranus, Neptune and Pluto. This page is for people who also follow Western astrology; the rest of this report uses the Vedic system.

Appendix: how the scores are worked out

Every rating in this report comes from fixed rules applied to your chart, with no manual adjustment. This appendix lists them so any number can be traced. They are traditional rules turned into arithmetic, not a statistically proven model: there are no confidence figures because no rule here has been shown to predict events better than chance on large samples. Read the ratings as relative guidance within your own life.

1. Monthly score

For the 15th of every month: 0.8 × the mahadasha lord's value + 1.2 × the antardasha lord's value (each planet's value comes from the houses it rules and occupies for your lagna, its dignity, and half from its star lord), plus Jupiter's transit from the Moon, 0.4 × Jupiter's transit from the lagna, Saturn's transit from the Moon, 0.4 × Saturn's transit from the lagna, and Rahu's transit from the Moon.

Transit	Weight by house counted from the Moon (1–12)
Jupiter	1: -0.3, 2: +1.2, 3: -0.6, 4: -0.6, 5: +1.2, 6: -0.6, 7: +1.2, 8: -0.8, 9: +1.2, 10: -0.6, 11: +1.2, 12: -0.8
Saturn	1: -1, 2: -1, 3: +1.2, 4: -0.8, 5: -0.3, 6: +1.2, 7: -0.3, 8: -1.3, 9: -0.3, 10: -0.3, 11: +1.2, 12: -1
Rahu	1: -0.4, 3: +0.5, 6: +0.5, 8: -0.4, 11: +0.5, 12: -0.4 (others 0)

2. Year score and rating

Year score = the average of the twelve monthly scores, minus 0.6 for each month at a dasha junction (the last sub-period of a mahadasha, or the first six months of a new one) averaged over the year, minus 0.8 × the amount the year's health load is above your own median, minus 0.6 × the amount its money-care load is above your median. Ratings compare each year with the other years of your own life, from birth to age 100: roughly the lowest 10% are Tough, the next 20% Challenging, the next 32% Mixed, the next 25% Good and the top 13% Excellent. The shares are approximate, because tied scores share a label and a year with six or more junction months is capped at Good. Labels depend on that 100-year range: scoring a shorter range would move some years up or down a step.

3. Health, career, money and marriage levels

Health: a monthly load from period lords ruling or sitting in the 6th, 8th or 12th (Rahu and Ketu act for their sign lord at 0.6), Mars joined to such a lord, sub-periods 6/8/12 from the mahadasha, Saturn crossing the 12th, and KP significators of 6/8/12. Low = below your 40th percentile, Moderate to the 70th, High to the 88th, Very high above it; stars run 1–5 on the same cuts with 5 for the top 5%. **Career**: the four strongest months of period lords ruling the 10th, 6th, 11th or 2nd, Jupiter or Saturn aspecting the 10th or its lord, Jupiter 10th/11th from the Moon and Saturn in growth houses, plus a step when a new mahadasha or a work-house sub-period begins; same 40/70/88 cuts over your adult years. **Money care** and **marriage care**: the top 15% of your years aged 20–75 on a load of loss-house (5/8/12) or 1-6-10-12 significations, junction months, and Saturn or Rahu on the relevant houses.

4. Life-area scores

Each of the eleven life areas is scored 3–9.5 (vitality 4.5–9.5) from the strength of its house (its lord's dignity and placement, planets in it and aspects to it) and of its natural significator, as 5.6 + 0.85 × that strength, rounded to the nearest half. The overall score is their average. Shadbala, Ashtakavarga and the other astrologer's-section methods are separate checks: they do not feed these scores or the year ratings.

5. What these numbers are not

Because every cut is a percentile of your own life, every chart has the same share of Excellent and Tough years. A Tough year is tough compared with your other years, not compared with other people. Health and money levels are traditional emphasis for planning, not medical or financial risk figures, and not predictions of illness or loss.
